

# ZERO MOTO

## ► CUSTOM SYSTEMS

The Zero Electric Bike paired with the SHOTOVER G1 delivers exciting new shot possibilities to the Whites Specialty Equipment camera car division. The Zero is silent and emission-less, perfect for indoor or outdoor use. The G1 can be quickly mounted over/under-slung, to the front or back in a matter of minutes. The light-weight G1, with its camera versatility make it ideal for this application. A custom, light-weight, dual air shock vertical isolator arm assists with larger bumps or serious off road locations. The Zero is capable of reaching speeds up to 137 km/h and the instant electric power makes its acceleration as fast or faster than any other camera vehicle available. Dual 48 volt battery packs power the G1 and any camera package for hours.
